

KNOX-BOX

Your fire department participates in a program that provides you with immediate access to your building 24 hours a day, without a security risk. The program is called Knox. The Knox Raid Entry System for emergency access eliminates lost time and confusion. Firefighters have immediate access to your building where and when it's needed.

Important Reasons to Install a KNOX-BOX

- Eliminate needless forced entry damage that may not be covered by your insurance deductible.
- Assure immediate building entry by firefighters without delay or waiting for building keys. Satisfy local fire codes and emergency access ordinances.
- Save time and aggravation by not having to drive to your building at 2:00 a.m. for a false alarm.
- Feel secure about emergency coverage when your building is left unattended. The fire department holds the only key to the KNOX-BOX.
- Depend on the highest lock box security available with attack resistant, UL tested reliability.
